SAVE YOUR MACHINES

TURN TO THE FUTURE

TURN TO THE FUTURE

SAVE MACHINES & LIFE

THE ESSENTIAL REVOLUTION

AD-1 is the revolutionary adaptor projected, designed and realized by NWorld to increase safety in you working site.

HOW IT WORKS?

AD-1 works in the easiest way! It ensures the cable to the socket with the simple rotation of the body of the adaptor. The rotation is possible only by pressing the two buttons on the side.

WHAT IS IT FOR?

AD-1 means increased safety! Thanks to that simple operation, you avoid loose cables, reducing the risk of electrical arcing and short circuits, which can lead to electrical shock hazards for the welder nearby. A perfect connection avoids overheating, and prevents cable fatigue, premature wear and ensures a long life to your machine!

 **AD-1** is an official patented NWorld product
patent n. 102019000009309
patent n. 102019000016976

press the two buttons and turn the body

80%

LESS INCIDENTS
LESS BROKEN MACHINES
SAFER ENVIRONMENTS

easy to use

 Pressing the two buttons on both sides you unlock the body

 Turning the body of the adaptor you lock the cable to the socket

DON'T FEAR THE DISTANCE

RESISTANT EXTENSION
SAFER CONNECTIONS
NO EXTERNAL ADAPTORS

EXTENDER SYSTEM

The **AD-1 extender system** is the easiest way to manage long cables.

The **extender system** works in the easiest way! **It ensures the connection between coaxial cables both from machine and wirefeeder.** The AD-1 technology ensures the safety of the system, and the tightness of the connection.

Thanks to a special extension cable, **you can extend the cable that connects the machine to the wirefeeder** and still avoid loose cables, increasing the safety of the whole system. **You can manage the length of all the three parts** to suit your particular needs.

the easiest way to manage the distance

machine side ○ — ○ — // — ○ — ○ wirefeeder side

easy to install

◆ Increase the overall length of cables with a simple operation.

○ Unlock the central connection and add the extension cable.

AD-1
