

THE RACK

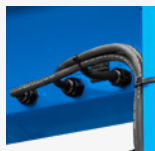

MULTI OPERATOR INVERTER SYSTEM

Maximize performances
with more portability
and smaller footprint

Lifting Eye
For safely lifting
and handling the
equipment.

Multi-connection
Easy multi-
connected inverter
management.

Main ON/OFF Knob
For switching the
main power supply
ON/OFF.

Robust Structure
For durability and
demanding operating
conditions.

Forklift Pocket
For safe and practical
handling with a
forklift.

MADE IN ITALY

MULTIOPERATOR INVERTER SYSTEM

COMPACT, RUGGED AND HIGH QUALITY

THE RACK SYSTEM

N World's inverter racks are ideal for shipyard and field construction where multiple arcs are needed. They bring benefit from more portability, smaller footprint and a single primary input connection for multiple welders.

OUTPUT »

CC CC CV DC

INPUT «

3ph 50/60 Hz

ONE EASY CONNECTION

Allows power sources to be connected with one primary power drop

NATIONAL ELECTRICAL CODE (NEC)

Compare the best in class rated output and wide amperage range

EASE OF PORTABILITY

Two overhead lifting eyes and fork lift slots to easy transport and put in operation.

SQUARE TUBE FRAME CONSTRUCTION

Supports more weight and stands up to rugged job site use

FACTORY INSTALLED

The power sources are factory installed in the rack and wired to the main power distribution panel

INDIVIDUAL FUSES

Provide overcurrent protection for each power source

STANDARD LENGTH MACHINE INPUT CABLES

Accommodated, ensure the power sources can be placed in any position on the rack

OPTIONAL CASTER KIT

Available for Inverter Racks.

RATED

BLUE SHARK 403 6-PACK RACK

Product Name	6-Pack Rack Complete with Electric panel
Product Number	MSR000001
Output Connection	DINSE/AD1
Rack Input Power	380V 3ph 50/60Hz
Rated Output Current / Voltage Duty Cycle	400A/39V/40% 320A/34V/60% 250A/31V/100%
Output Range (amps)	15-400
L x W x H (mm)	700x890x1550
Net Wt. (Kg)	100

Suitable Machines and process:

Blue Shark 403: Stick

New Blue Max 403: Stick, TIG, MIG, Flux-Cored, Gouging

Via Lega Lombarda 30 - 24040 Bonate Sopra BG Italy
